Little Improvement in the Strike Situation on the Interborough Roads.

General Staff Insists That Rumors of Disaster to Kuropatkin Are False.

MEN SEEM CONFIDENT OF WINNING.

BUT PEOPLE ARE VERY PESSIMISTIC.

Strikers Willing to Accept Offer of Mayor McClelland, But Employers Refuse—No Violence Has Been Reported and No More Serious Accidents Have Taken Place.

The Commanding General Being Warmly Criticized for His Excessive Prudence—Emperor's Military Adviser Now Defends Gen. Gripenberg's Course—Public Interest at High Pitch.

New York, March 9.—The second day of the strike on the subway and elevated lines showed considerable improvement over yesterday's conditions. Trains were run in the subway and the Sixth Avenue elevated line was kept open with a larger number of trains than yesterday. At first people were timid and hesitated to ride on the roads affected by the strike, but between 8:30 and 9 o'clock, when the downtown rush was at its height, the public began to realize the hopelessness of using the already overtaxed surface lines, and eagerness to get to business overcame timidity.

Most of the trains made fairly good time, but the long stops at stations and careful running indicated that the company was taking no risks.

On the whole, the underground seemed in better condition than at the same hour yesterday. Notwithstanding the improvement in the Interborough's service, much of the downtown traffic was carried by the surface lines.

George E. Pepper, president of the Amalgamated Association of Electric and Street Railway employees, said Wednesday: "We were only skirmishing Tuesday. We are going to begin Wednesday. We will make the fur fly for sure. I am entirely satisfied with the situation. We will win sure. It's a foregone conclusion. I am dissatisfied with the working of the police and will make a protest to Commissioner McArdoo. We have counseled perfect order during the strike and if one of the strikers is guilty of violence he should be punished by the organization and sent to state prison. Any violence done so far has been done by sympathizers and not by members of the union. The success or failure of the strike depends on public opinion. We have public opinion now and we will hold it."

The officials of the Amalgamated Association of Electric and Street railway employees and the local officials of the Brotherhood of Locomotive Engineers have sent a letter to Mayor McClelland in response to his suggestion of Tuesday, stating that they are willing to consider any proposition that may bring about an amicable adjustment of the strike. The suggestion of Mayor McClelland, which was sent to both the Interborough company and the strikers, was that adjustment of the trouble be trusted to him personally or a disinterested committee of citizens.

Forty striking motormen have applied for their old positions on the subway and elevated lines and have been put to work according to an announcement made at the offices of the Interborough company. It was also said at the company's office that, although the heavy fog had interfered to some extent with the operation of trains on the elevated lines, the service showed marked improvement in all directions.

Conditions in the subway were perceptibly improved during the forenoon. Trains, well-patronized, were run at regular and frequent intervals and there was almost entire absence of delay and confusion. There was still a scarcity of platform room at many stations.

The executive committee of the Interborough Rapid Transit company, after an executive meeting Wednesday announced that a letter had been sent to Mayor McClelland in reply to the mayor's letter offering to act as arbitrator in which the executive committee thanked the mayor for his offer but added that the company had nothing to arbitrate.

THE DOMINION TREATY

Second Message of the President on the Subject Made Public By the Senate.

Washington, March 9.—The senate in executive session Wednesday made public the second message of President Roosevelt on the Santo Domingo treaty. It says that the Dominican interests demand action by the senate at the earliest practicable moment; that the treaty is at the earnest request of the Dominican republic to afford her relief and will remove apprehension of foreign aggression in that quarter. It says that the treaty will benefit not only Santo Domingo, but also the United States by promoting stability, order and prosperity in that island. The message says that the treaty offers the only method for the collection of fraudulent claims and for protecting just claims of foreigners and Americans alike and urges Santo Domingo's need of the aid of a powerful and friendly nation.

San Francisco Police Authorities Deny Rumors Regarding Finding of Poison at Stanford Residence.

San Francisco, March 9.—The police authorities have deemed it necessary to deny the persistent rumors afloat that they found strychnine in Mrs. Sanford's residence here. Acting Chief of Police Spillane and Captain of Detective Burnett have given out the following statement: "I hereby certify that to the best of my knowledge and belief the investigation in this city of the death of Mrs. Stanford has failed to result in the finding of any strychnine whatever, either at the residence of Mrs. Stanford or elsewhere."

The private detectives engaged in the case also deny that they found any poison on the premises.

RUSSIANS IN FULL RETREAT

Kuropatkin Evacuates His Line of Defense Along the Shakhe River During Darkness.

GREAT HEAPS OF SUPPLIES BURNED.

Gen. Kuroki Also Pushing the Defeated Army Hard—Japanese Defeat Superior Force of Enemy at Mukden—Fall of Mukden Appears Imminent.

Gen. Kuroki's Headquarters, March 9.—The Russians Tuesday night under cover of the darkness evacuated the whole line along the Shakhe river and are now in full retreat northward. The Japanese infantry is pressing them closely.

Before retreating the Russians set fire to great heaps of supplies which burned throughout the night. The fall of Mukden appears imminent. The Japanese are pushing the Russians hard on the east.

Jaos Defeat Superior Force.

Tokio, March 9.—The following dispatch has just been received from the headquarters of the Japanese armies in Manchuria: Our force which has been engaging a superior force of the enemy in the neighborhood of Manchuntan (southeast of Mukden) dislodged the enemy from his position at eight o'clock Wednesday morning and is now pursuing him northward.

Kuropatkin's Communications Still Open. St. Petersburg, March 9.—The Associated press is now in a position to positively deny the current rumors that Gen. Kuropatkin's lines of communications have been cut. Within an hour a cipher dispatch from Kuropatkin to Emperor Nicholas, containing a report of the day's operations, has arrived and is now being transmitted to Tsarskoe-Selo. Its contents are unknown except that Kuropatkin at nightfall still held Mukden.

The Associated press hears from a high source that the position of the Russian left is critical. Compelled by the failure of Gens. Oku and Nogai to crush the Russian right Tuesday Field Marshal Oyama again transferred the weight to his right and Gen. Kuroki succeeded in driving a wedge between Gen. Linevitch's main army and Gen. Rennenkampf's corps which is the extreme left. The latter is declared to be in grave danger of being cut off or surrounded.

THE COLORADO CONTEST.

General Assembly Will Probably Talk For Three Days Before Voting on Committee Reports.

Denver, Col., March 9.—The general assembly of Colorado, meeting in joint convention to consider the governorship contest between James H. Peabody and Alva Adams, discussed Wednesday the four reports submitted by the contest committee.

Under the rules adopted by the joint committee ten minutes are allotted to each member to discuss the reports and any member is permitted to yield his time to another but none can talk over 20 minutes. There are 97 members and the debate may continue for three days.

After an hour's session the joint convention took a recess until Thursday morning. A vote taken Wednesday established the fact that none of the reports submitted by the contesting committee would receive a majority of the votes at the present time.

On a motion to sustain the chair's ruling on a point of order, the vote showed the number of Peabody's supporters present to be 42 while against him there were 52 votes with three absentees.

BIG IOWA FIRE.

American Cereal Company's Plant at Cedar Rapids Totally Destroyed, Causing a Loss of \$1,500,000.

Cedar Rapids, Ia., March 9.—One man thrown from the sixth story of a building to the pavement was the only fatality in the \$1,500,000 fire which took place in this city during Tuesday night, in the American Cereal plant. John Safely, the night watchman, had gone to the sixth story of the Hull house to examine the condition of the floor when an explosion occurred. Safely was either thrown out of the building or else jumped to the pavement below. He was crushed beyond recognition.

The fire was still burning Wednesday morning and eating its way through the new mill 150 feet of which had already been destroyed. The whole structure is doomed. The entire loss will reach \$1,500,000, while the official list of insurance as prepared amounts to \$300,000.

The fire departments from Belle Plaine, Vinton and neighboring points are here assisting the local force to confine the flames to the cereal plant.

Three children were poisoned at Lawton, Ok., by drinking buttermilk which had been left in a tin vessel.

Republicans Against Statehood.

Guthrie, Ok., March 9.—The Oklahoma Senate Wednesday night again refused Mr. Menefee's request to take up his constitutional convention bill for consideration at the night session. From all parts of the Senate the republicans called out "No, No," and the motion was voted down. There is no show whatever for any legislation of this kind. The republicans have caucused and agreed not to have the bill even considered.

Fighting Refinery Bill.

Guthrie, Okla., March 9.—A special car bringing oil and gas men from the Cleveland-Bartlesville field arrived Wednesday afternoon. They are fighting the Fuller state oil refinery bill. Gibbs Gets \$100.

The big suit of B. P. Gibbs vs the Dunlaps, bankers, for slander is finished. After a few hours retirement from the jury box, the jury returned a verdict in favor of Gibbs for \$100. The sum sued for was \$25,000.

The evidence in the case showed that three and one half years ago A. B. Dunlap was president and W. G. Phippin cashier of the First National Bank of Ada and that B. P. Gibbs was acting as attorney for the bank, in which capacity he was sent to A. Kansas to recover some mules which were mortgaged to the bank. He was gone several days and it appeared satisfactorily attended to the business, but when he returned and a little later presented his bill to the bank for services rendered, Mr. Dunlap became angry and he insisted that Mr. Gibbs was not entitled to collect such a fee inasmuch as he had applied to the bank for the job and it was understood that the principal compensation should be in the reputation it would give the new and young lawyer to be advertised before the public as being a bank's attorney. So, Dunlap being highly conceited that he was president of several banks, and judging that Gibbs was a man most worshipfully attached to and held in high reverence bank presidents, decided that it was the natural thing for Gibbs to do when he was over in Arkansas, to stop in Hot Springs and pass himself off as Dunlap, president of the bank. Therefore Mr. Dunlap remarked that such had been done, and in consequence Mr. Gibbs sued him for \$25,000, alleging that such a report emanating from such a credible source as the president of a bank was ruinous to reputation, and by reason of such report a prospective flattering practice was sacrificed.

STANDARD STRIKES AGAIN.

Hereafter No Kansas Oil Testing Below 30 Degrees Gravity Will Be Bought

Independence, Kan., March 9.—The Prairie Oil & Gas company, the Kansas branch of the Standard Oil company, has issued an order to the effect that hereafter no Kansas oil testing below thirty degrees gravity will be bought by the company.

This is characterized as the hardest blow yet struck by the Prairie company at the Kansas oil producers, as it means that scarcely no oil will be taken by this concern in Kansas outside of the bottom Independence field, Neodesha, Tyro and Chautauqua county. This will, it is believed, not affect the district where the state oil refinery is to be located.

John O'Brien, vice president of the Prairie company, in explaining today's order, said: "Oil below 30 gravity is undesirable on account of no market. It has no value for refining purposes and it is impossible to find a market for fuel."

Guthrie, Okla., Mar. 9.—All house democrats bolted, led by Mr. Ferris of Comanche, when the house refused Wednesday afternoon to consider the Constitutional convention bills. All left the house and did not return during the afternoon. This did not break the quorum, as enough republicans were left to do business. Senator Menefee again tried to get up the same bill in the senate, but was voted down, 6 to 5. Congressman McGuire refuses to discuss these bills, saying he knows nothing of their contents.

The republican leaders of Oklahoma were forced to single statehood advocacy. The Oklahoma State Capital, which is really the republican party organ of Oklahoma, is today lending every encouragement to double statehood boomers, and the production of anti-constitutional convention sentiment by giving prominence in its columns of articles representing antagonism to single statehood.

Territory Notes.

J. J. Jones, of Sapulpa, has applied to the department at Washington for Judge Raymond's job in the case that gentleman is removed on the charges now pending against him.

Durant will soon have one of the best equipped postoffices in the territory. Modern fixtures and 663 automatic combination lock boxes will be installed.

The last call for cattlemen to pay their taxes in the territory has been issued under instructions from Indian Agent Shoenfelt. The tax for 1905 was due January 1, and all who have not paid since that time are violators of the law and will be dealt with as such.

The oldest member of the Seminole tribe, and said to be the Indian in America, died last week at the age of 110. His name was Klablo Harjo, or, translated, "Old Fish." He was born in Florida and fought in the Seminole wars.

Superintendent Benedict has issued a call for the supervisors in the five civilized nations to meet in Muskogee next Friday. The object of the meeting is to discuss problems that will present themselves in connection with the disposal of the government school appropriation for next year.

According to reports from the immigration department of the Rock Island railroad in Chicago, the heaviest immigration in the history of the Indian Territory may be expected the coming summer and fall. Active Work of the Session Completed. Preparatory to Adjournment on Friday.

Topeka, Kan., March 9.—After a short discussion, the house adopted Mr. Landergrin's resolution requesting the last report made to Gov. Bailey by the state accountant, Mr. Rowett. This was a report of the latter part of the investigation of the state treasury and it never was made public. Gov. Bailey turned it over to his successor in the office and Gov. Hoch refused to allow it to be printed. Mr. Leland made a speech for the resolution, in which he said that Rowett's report had been handed to Gov. Bailey the day before the end of the term and he could not well give it out then. Mr. Leland also made the statement that the report showed that the state school fund had been looted during the term of F. E. Grimes, as state treasurer, and that a shortage of \$30,000 had been found. This statement was not denied by other speakers. Mr. Morgan and Mr. Mead did not want the resolution adopted and made short speeches in which they said inasmuch as Gov. Hoch is about to start an investigation of the school fund, publication of the old report could do no good. The resolution was adopted by a vote of 64 to 29.

The senate passed the substitution executive and judicial appropriation bill. The bill carries an item of \$2,000 a year for maintaining the executive mansion, and Senator Waggener, of Atchison sought to have it amended so as to make the fund available for groceries, servants' hire or other domestic expenses of the governor. Senator Smith, of Edwards, called attention to the recent decision of the supreme court in the case of Gov. Bailey against the treasurer of state in which "maintenance" is expressly defined not to mean domestic expenses. Senator Waggener insisted upon his amendment, but it was voted down. The bill gives the governor his statutory \$5,000 a year salary; his private secretary, \$2,000; an assistant private secretary, \$1,500; stenographer, \$1,200; rewards and arrests, \$1,500; contingent fund, \$4,000, and special attorney for the railroad board, \$2,500. The several stenographers of the supreme court judges and of the district judges, and the stenographers of the railroad commission are given \$1,200 a year. All other stenographers are given the uniform salary of \$900 except the stenographers of the adjutant general, who receive \$600; state accountant, \$400; State Historical society, \$720; State Horticultural society, \$720 and labor commissioner an extra item of \$2,000 a year is given for the enforcement of the new anti-trust laws. To the executive council by special bills \$10,000 is given for rebuilding the north and south steps of the capitol and a like sum for new walks and drives. To keep the state-house clean twelve janitors at \$720 a year are allowed. Formerly the allowance was eighteen janitors.

Both houses passed the congressional redistricting bill, which gives Kansas eight districts. Cowley county was left in the Third district.

The legislature, so far as is in its power, absolved ex-Gov. W. J. Bailey from the repayment to the state of money paid by the state in liquidation of his grocery bills, which the supreme court recently held were not a legal claim against the state.

The Pittsburg manual training school won a big victory when both houses voted appropriations for its maintenance and \$10,000 for land for a site.

All active work in the legislature was completed last night. The legislature met to-day for the purpose of hearing any messages the governor may have and on Friday noon will adjourn sine die. This has been the most notable legislature in the history of the state on account of the large amount of anti-trust legislation.

Cash Between Santa Fe Attorneys and Mr. Monett in the Anti-Trust Suit.

Topeka, Kan., March 9.—There is a clash between the attorneys for the Santa Fe and F. S. Monett, over the introduction of the Santa Fe's book and records as evidence in the suit against the Santa Fe for violation of the anti-trust law.

In the examination of W. J. Healy, auditor of freight receipts, Mr. Monett made a demand for the production of certain tariff and classification sheets in Mr. Healy's department. Mr. Healy said it would take some time to get them. Mr. Dunlap of the Santa Fe wanted two hours to determine whether they would produce the wanted documents, intimating that they might not do so.

Mr. Healy said it would take an express wagon to haul up the wanted sheets which are stored at the Santa Fe depot. The time consumed until 2:30 was in a skirmish between counsel for both sides. Mr. Monett trying to get the tariff sheets and the Santa Fe's lawyers evading.
